

## Inheritance of *Shchiv Mera* (Person on Death-bed)

Ref: *Sefer Kinyan, Hilchot Zechiyah Umatanah, Chapter 12*

The inheritance discussed here is a verbal one. Inheritance carries more weight than giving. A gift has a limit, but inheritance never ceases.

	<i>Shchiv mera</i>	Healthy person
Says that one son should inherit	✓ (If however a written will states this, that son only becomes the executor and all the other children still inherit)	✗
Says that a non-legitimate heir can inherit	✗	✗
