

Lineage animals

With animal, status of animal is determined by mother (*Hilchot Kilayim*, Chapter 9:6)

Status of animal goes after mother in relation to *Bechorot* (*Hilchot Bikkurim*, Chapter 9:5)

In relation to first born donkey (*petei chamor*), both mother and offspring must resemble a donkey (*Hilchot Bikkurim*, Chapter 12:18)

If born animal looks like its mother even partially, it will be regarded as same status as mother (*Hilchot Bechorot*, Chapter 2:6)
